Consent Form

This study involves a web-based survey designed to investigate the following topics: sense of belonging and attitudes towards immigrants. This study is being conducted by Valeria Salinas-Lopez of The University of Texas at Dallas. It has been designated by The University of Texas at Dallas Office of Research Compliance as exempt from review by an Institutional Review Board. No deception is involved, and the study involves no more than minimal risk to participants (i.e., the level of risk encountered in daily life). Participation in the study typically takes approximately 15 minutes and is strictly confidential. Participants will be asked several questions related to the topics listed above.

All responses are treated as confidential, and in no case will responses from individual participants be identified. Rather, all data will be pooled and published in aggregate form only. Participants should be aware; however, that the experiment is not being run from a "secure" https server of the kind typically used to handle credit card transactions, so there is a small possibility that responses could be viewed by unauthorized third parties (e.g., computer hackers).

Participation is voluntary, refusal to take part in the study involves no penalty or loss of benefits to which participants are otherwise entitled, and participants may withdraw from the study at any time without penalty or loss of benefits to which they are otherwise entitled. Please note that your participation (or lack of participation) in this study will have no effect on your education or course grades at UTD.

If participants have further questions about this study, they may contact the Principal Investigator, Valeria Salinas-Lopez at vxsl70930@utdallas.edu. Participants who want more information about their rights as a participant or who want to report a research related concern may contact The University of Texas at Dallas Office of Research Compliance at (972) 883-4579.

By its very nature, the topic of this survey may be upsetting. If you find that to be true, we encourage you to discuss this with a trained professional or contact the Student Counseling Center: 972-883-2575 (office), 972-UTD-TALK (after-hours helpline), SSB 4.600.

If you are 18 years of age or older, understand the statements above, and freely consent to participate in the study, click on the "I Agree" button to begin the survey.
