

Social Belonging and Immigrant Attitudes

THE UNIVERSITY OF TEXAS AT DALLAS

EPPS 6356: DATA VISUALIZATION

VALERIA SALINAS-LOPEZ

Research Statement

1. Do students who identify as immigrants feel as though they belong at UTD?
2. Are UTD students who identify as immigrants accepted/welcome by non-immigrant UTD students?

Data Source

I will be conducting a survey on UTD Students in order to obtain original primary data.

This will be done through Qualtrics.

Visualization Method

RStudio

Maybe Python as we learn in class.

Layout

1. Line Plots: Will show the differences in variables measuring sense of belonging.
2. R-squared plots: To show the strength of variables in the model.
3. Bar Graphs: Show the frequency of answers for measuring sense of belonging.
